

New 2007 Ontrak Programs

Ontrak is a group purchasing organization striving to bring your golf operation substantial savings on food, beverage and facility product purchases. By leveraging the buying power of over 1,000 members and through their parent company, Sodexho Canada, Ontrak is able to offer your golf operation the best value possible. In addition, Ontrak supports the NGCOA Canada as a Platinum Sponsor, sharing revenue with the NGCOA Canada to help strengthen the golf industry.

The best news of all is that the Ontrak Program is available to your course as an entitlement (no extra cost) with your NGCOA Canada membership and includes purchasing agreements with a wide variety of distributors and manufacturers.

New and remarkable

Ontrak has been negotiating with its suppliers to bring NGCOA Canada members even more for the 2007 golf season. In addition to the savings and value you already receive through Ontrak, the 2007 Ontrak Program also brings with it some added special offers for golf course members.

The Ontrak Program for 2007 offers a number of new innovative products and merchandising tools, more competitive pricing, new training opportunities, and...thousands of dollars in rebates back to your golf course.

Full details on the 2007 promotions can be found on the Ontrak website, 'member's only' section (www.ontrakpurchasing.ca). Be sure to visit the website or contact your local Customer Service Manager to take advantage of the specials available to you as an NGCOA Canada member.
